Hello Evert,

The order#: 20140103 contains your 2012 State Package for Michigan. Please try using order #: 20140103 and Order Key: 1156314911 to download. You currently have 2 downloads available. Daniel Slane has downloaded that order once, you have downloaded that order twice.

If you are able to, Unregister any IMPLAN software that are no longer being used by clicking in the Help menu and selecting Unregister. This will free up data orders that have been downloaded to that registration, to be downloaded onto a different registration.

Everyone is permitted to install IMPLAN 3.1 onto their systems, and register in their own name, or the intended user's name. Once IMPLAN is installed and registered, you are able to download a Data Order. Each Data Order is allowed to be downloaded on up to five single registrations of IMPLAN. IMPLAN Group LLC tracks and limits the number of downloads of a Data Order.

Please let me know if that works for you.

Thanks,
Lucas
